

PLM solutions for your product development and production

 **SOLIDWORKS**

3D SYSTEMS

CAMWorks

Your strong partner with experience and expertise.

Whether you are a start-up or an international corporation – you always come first as our customer. As a leading supplier of SOLIDWORKS, 3D Systems and CAMWorks in Germany, we offer unique know-how.

More than 7,000 customers already have placed their trust in us: mostly companies from the manufacturing industry, mechanical engineering, medical technology as well as tool and mould industries.

Our solutions offer virtually **unlimited possibilities for optimizing your product development and production.** Advising you, guiding you and supporting you in the optimal exploitation of these potentials, is our mission, **your success is our motivation.**

With our parent company, Bechtle AG, we are able to support our customers in all IT areas. Together, we offer comprehensive practical knowledge and years of experience.

Quality pays off.

More than 7,000 customers place their trust in us.

Your benefit: **More innovation** through process optimization.

As a PLM system integrator, our focus is always on **optimizing value creation along the entire process chain of product development and manufacturing**. In other words, the greatest possible success for each of our customers.

Together with our customers we create system environments in which people can **design, communicate and collaborate more effectively**. Optimized solutions and services for better results: this is our ambition, our motivation and our incentive.

Your benefits

- ✓ **Seamlessly integrated system for product development and manufacturing**
- ✓ **Increase in productivity**
- ✓ **Reduction of costs**
- ✓ **Reduced time-to-market**
- ✓ **Improvement of product quality**

PLM solutions

for your product development and production.

As a PLM system integrator, we provide support for the optimization of the entire process chain – from the first draft to design and construction and validation for the prototype and ready-for-market product.

Turn your design ideas into reality quickly and easily – from the first draft to the marketable product.

- 3D-CAD
- Steel construction
- Plant construction
- Timber processing

PDM/PLM

Our parent company Bechtle supports you in almost all IT areas. Bechtle is Germany's largest IT company and the leading IT e-commerce provider in Europe.

- Cloud, mobility, security, IT as service
- ERP, CRM, DMS, BI
- IoT, Microsoft Azure
- Mixed Reality, AR, VR (incl. Microsoft HoloLens)

Unique know-how.

Industry expertise based on countless projects.

CAE

Virtual tests under real conditions optimize the design process, save development costs and reduce the time required to introduce new products.

- Linear, non-linear static, dynamic analyses
- Topology optimization
- Injection molding analysis
- Flow analysis
- Strength verification according to FKM guideline

ECAD

Make use of integrated development environment for synchronous design by your MCAD and ECAD teams.

- Mechatronics
- Design of electrical circuit diagrams (schematics)
- 3D design of switch cabinets, cables, cable strands and harnesses
- Printed circuit board design (PCB)

With our PLM solutions, we support all your value-adding business processes. Data management and work processes control with SOLIDWORKS PDM is key here.

- PLM Coaching
- System Integration
- Data Management
- Process Automation

CAM

Our CAM solutions help you manage the design of production efficiently and reliably – with high quality and low costs.

- Milling, turning and turn milling
- Wire-cut EDM
- Virtual Machine
- G-Code simulation
- High-end processing strategies

3D Printing

Revolutionise your production with professional 3D printing solutions: from prototyping to production, in plastics and metal.

- Direct metal printing (DMP)
- Plastic 3D printing (DLP, MJP, SLS, SLA)
- Full-color 3D printing (CJP)
- Fine & metal casting 3D printing (DLP, MJP, SLS, SLA)
- Dental 3D printing (DLP, MJP, SLA, DMP)

Our services: Expect the best.

We provide consultancy and services which are on the cutting edge of the market - just like our solutions. Successful together: that's our philosophy and our promise. More than 7,000 customers already have placed their trust in us. Your success is our motivation.

Consulting services

Decades of experience go into every new project. The essence of our consulting is **the understanding of the entire process chain** – from the idea to the finished product. To do this, we analyze your requirements, framework conditions, challenges and targets.

System integration

We provide support for all issues related to installation and configuration. Our experienced consultants guarantee a **professional and reliable service** so that you can **quickly become productive**. Our quality management is **ISO 9001:2015** certified and our project management is in accordance with the **PRINCE2 method**.

Training

No matter whether you are a beginner wanting to learn the basics or an experienced user wanting to deepen your knowledge: **our training courses always take you a step further.** You decide when, where and how you would like to take part in training seminars: at one of our locations, online or directly at your location.

Support

Even during ongoing operations, we are always ready to assist you. All our employees are experienced professionals with a high degree of technical expertise. And that's how they work: **fast, pragmatic, uncomplicated, reliable** and always with a quick and safe solution in mind.

This is only an overview of the services we offer. Contact us to discuss your individual challenges and goals – we will gladly advise you and provide solutions that will enable you to make progress.

References: High-profile companies are our customers.

We are proud of all our customers, from “small specialists” to world-renowned companies. Outstanding products are in fact their trademark, and for us, this is the best confirmation that we are able to contribute to their success and yours.

This is just a small selection of our customers. **Get in touch:** We will gladly send you a list with references from your industry and/or region.

Contact: Further information, consultation and sales.

Please contact us for further information and an individual consultation. Our consultants will be happy to advise you over the phone, at one of our 11 locations in Germany or directly at your location.

Let's talk about how you can optimize your product development and production. We look forward to hearing from you!
